

The health, safety and well-being of our residents, employees and families is always a priority at our communities. With the coronavirus (COVID-19) in the news and in the minds of many, we want to address actions, which are taking place related to this concern.

Some of the actions we are addressing include:

- Consistent updates and communication to those who live and work at our communities.
- Evidence-based precautions that align with guidelines provided by the CDC.
- Reviewing emergency preparedness and response measures in the event that a virus impacts our communities or the surrounding area.
- Changes to our travel and visitation guidelines for all employees, vendors and guests.

We are closely monitoring all of our local, state and federal health agencies to ensure we can respond quickly and effectively to protect our communities and mitigate risks of an outbreak.

We will continue to remain vigilant in our efforts to preserve the health and safety of our communities.

If you have questions, concerns or need more information, please contact [info@chancellorhealthcare.com](mailto:info@chancellorhealthcare.com).

If you are looking to move yourself, a family member or friend into one of our communities please contact us at [info@chancellorhealthcare.com](mailto:info@chancellorhealthcare.com).

If you are applying for a position at one of our communities, also please contact us at [info@chancellorhealthcare.com](mailto:info@chancellorhealthcare.com).
